
ABBA MARK CHUKWUZOBA

Markchizoba5093@gmail.com | [07038447643](tel:07038447643) | [LinkedIn](#)

Career Objective: I'm an experienced Full Stack Developer in Js and Reactjs. I have a solid understanding of the fundamental backend concepts like performing CRUD operations using Expressjs and serverless next functions. I'm fully open to advanced learning and improvement driven projects

EDUCATION

University of Nigeria, Nsukka (2023)
B.MR, Medical Rehabilitation

WORK EXPERIENCE

Full Stack Mentor - Next College (Feb 2024 - Present)

- Mentoring junior developers in full-stack technologies including React, Next.js, and Node.js.
- Providing code reviews, live sessions, and project feedback to ensure best practices.- Helping mentees build, debug, and deploy full-stack applications.

Backend Mentor - AxiaAfrica. (August 2024 - Present)

- Supporting backend team with reviews and architectural guidance using Node.js, Prisma ORM, and MONGODB.
- Teaching effective database design and API logic implementation.

Denhub software development. (Feb 2023 – Oct 2023)

- Created a comprehensive web application by utilizing the React framework Next.js, incorporating both frontend and backend development, and implementing Typescript and Tailwind CSS for enhanced functionality and styling.
- Utilized Prisma ORM to establish a database connection, with MongoDB serving as the underlying database.
- Nextauth served as the primary authentication mechanism within the application.
- Deployed the website on Vercel, acquired the domain name through Namecheap, and configured the DNS settings for seamless hosting connectivity.

Abbanet IT Solutions (January 2021 - Present)

- Frontend team leader

- CTO

PERSONAL PROJECTS

GMODECHATZ [CHAT APPLICATION] REACT, REDUX TOOLKIT, STYLED-COMPONENT AND JAVASCRIPT, NODEJS AND MONGODB

- Designed and implemented a MongoDB database with a 70% user interaction rate.
- Developed a user-friendly environment by creating a React-based user interface.
- Implemented the deployment of the backend on Heroku, enhancing accessibility to data fetching.

MGLOBAL [ECOMMERCE WEB APPLICATION] REACT, STYLED-COMPONENT AND JAVASCRIPT, NODEJS AND MONGODB

- Developed an administrative dashboard tailored for laptop vendors.
- Identified coding requirements for site creation, leading to the development of a highly efficient application.
- Crafted a user interface that significantly improved users' overall experience.
- Seamlessly integrated a payment gateway to facilitate the smooth transfer of funds.

FLOWKITE [ADVENTURE JOURNAL] REACT, STYLED-COMPONENT AND JAVASCRIPT, NODEJS AND MONGODB

- Developed a robust backend to enhance seamless interaction with the frontend.
- Crafted a user-friendly interface with React to provide users with a straightforward and enjoyable interactive experience.
- Implemented an authentication and authorization login page, offering users an alternative login and registration process for enhanced flexibility.
- Conducted thorough website testing, including user testing and troubleshooting, prior to the live development phase.

SKILLS

- Language: English, Igbo
- Databases & ORM: MongoDB, Prisma ORM
- Authentication: NextAuth
- Automation: Node Cron, Scheduled Jobs
- Web development: Javascript, Typescript, React, NextJs, HTML, CSS, Tailwindcss, Expressjs, NextAuth.

- **Technology:** Git, MonogoDB, Github
- **Social:** Good analytical skills, Excellent communication skills, Team – spirited, Ability to work enthusiastically and productively under pressure. Good teaching skills
